Trang Tran

ttran@ict.usc.edu ttmt001.github.io

RESEARCH INTERESTS Computational modeling of prosody for spoken language understanding, applications of language technology to health, education, social science

EDUCATION

University of Washington, Seattle, WA Dec 2020
PhD, Electrical & Computer Engineering
- Thesis: *Neural Models for Integrating Prosody in Spoken Language Understanding*

Bucknell University, Lewisburg, PA
M.S., Electrical Engineering May 2014
- Thesis: *Noise-robust Voice Conversion*

B.S., Electrical Engineering and *B.A.*, Economics May 2012

RESEARCH EXPERIENCE

Institute for Creative Technologies, University of Southern California (ICT-USC) *Playa Vista, CA*
Postdoctoral Researcher Dec 2020 - present
Prosody Modeling for Therapist-Client Dialog in Motivational Interviews
- Developing models for multimodal and dyadic analysis of therapist-client dialogs in motivational interviews and for predicting post-session behavior

TIAL Lab, Electrical & Computer Engineering
University of Washington, Seattle, WA
Graduate Research Assistant Jun 2014 - Dec 2020
- **Neural Prosody Models for Spoken Language Understanding** [2,3,4]
  - Developing prosody and speaker models for dialog act prediction
  - Developed a new convolutional neural network architecture for integrating prosodic features with a parser for conversational speech, achieving gains over strong text-only baselines
  - Studied the effects of read vs. conversational speech in parsing performance, demonstrating style differences in speaker use of prosody
  - Analyzed the utility of prosodic features for correcting parse errors, finding most benefits in disfluent regions and attachment errors
  - Analyzed the effects of transcription errors on parsing performance, showing a non-negligible effect of transcription errors on the effective use of prosody
- **Characterization and Detection of Online Community Language and Online Community Endorsement** [5]
  - Developed style and topic models for characterizing language of Reddit discussions, demonstrating that community endorsement is more correlated with style than topic

  - Contributed to the development of metrics and features for detecting community endorsement on Reddit discussions
- **Other Projects** [1,6]
  - Studied disfluency patterns in children's speech; helped extend an annotation system for children's speech transcripts
  - Investigated lexical difficulty features for text simplification based on analysis of reading by low-literacy adults and anomalies in prosodic and duration cues
  - Studied acoustic models of stress and pitch patterns for use in language acquisition, intelligibility scoring, and stance classification

Liulishuo (LingoChamp), LAIX Inc. *San Mateo, CA*
Research Intern Jun 2018 - Sep 2018
Modeling Prosody for Second Language Learning [2]

- Explored computational models for integrating acoustic-prosodic information (seq2seq vs. transformer architectures) in parsing for a second-language learning application
- Analyzed differences in native vs. non-native speech effects on parsing results, finding little correlation between parse scores and proficiency based on repeated speech

Amazon Alexa Shopping Team *Seattle, WA*
Applied Scientist Intern Jun 2017 - Aug 2017
Ranking Models for Amazon's Choice

- Explored ranking algorithms and developed novel models for selecting Amazon's Choice items
- Analyzed the utility of language features applied to Amazon's Choice ranking models

Toyota Technological Institute at Chicago (TTIC) *Chicago, IL*
Visiting Graduate Intern Jun 2016 - Sep 2016
Syntactic Constituent Parsing of Speech [4]

- Developed a many-to-one encoder-decoder neural network for constituency parsing of conversational speech, using transcripts and acoustic features

Bucknell University, Electrical Engineering *Lewisburg, PA*
Graduate Research Assistant Aug 2012 - May 2014
Speech Enhancement & Voice Conversion using Inventory Style Approaches

- Explored filter- and inventory-based speech enhancement, demonstrating better perceptual quality from inventory-based methods
- Developed an inventory-based noise-robust voice conversion system

THESES

- **Trang Tran**. 2020. "Neural Models for Integrating Prosody in Spoken Language Understanding." PhD Thesis, University of Washington
- **Trang Tran**. 2014. "Noise-robust Voice Conversion." Master's Thesis, Bucknell University

TEACHING EXPERIENCE

Lead Teaching Assistant, Electrical & Computer Engineering
University of Washington, Seattle, WA Sep 2019 - Aug 2020

- Mentor junior teaching assistants (TAs); hold teaching workshops and peer meetings; maintain teaching resources for department TAs
- Serve as a liaison between teaching assistants and faculty in the department, ensuring the well-being and quality of TAs

Teaching Assistant, Electrical & Computer Engineering
University of Washington, Seattle, WA Mar 2015 - Jun 2019

- Courses: Continuous Time Linear Systems (Winter 2016, Autumn 2016), Discrete Time Linear Systems (Spring 2015), Conversational Artificial Intelligence (Spring 2019)
- Responsibilities: assisted in course material development and revision; ran laboratory sections and software tutorial sessions; assisted students with homework assignments; graded assignments

Teaching Assistant, Electrical Engineering & Physics Departments
Bucknell University, Lewisburg, PA Aug 2008 - May 2014

- Courses: Fundamentals of Electrical Engineering, Circuit Theory I & II, Linear Systems and Signal Processing, Electronics I & II, Electrical Control Systems, Theory and Applications of Electromagnetics, Electrical Energy Conversion, Classical and Modern Physics I & II
- Responsibilities: assisted students with lab equipment, procedures, and homework problems; graded assignments

HONORS & AWARDS

Grants and Fellowships:

Clairmont L. Egtvedt Endowed Engineering Fellowship, 2020
Grace Hopper Celebration of Women in Computing Scholarship, 2015
Graduate Summer Research Fellowship, 2013
Richard McGinnis International Engineering Study Scholarship, 2013
Fremont International Student Scholarship, 2007-2012
Bucknell Provost Office Grant for Undergraduate Research, 2009

Awards:

Celebrate UW Womxn, 2020
UW SWE Outstanding Female Engineer Award, 2020
The Professor George Allison Irland Prize, 2012
The Ernest and Josephine Christensen Award, 2012
The Jeffrey James Harold Prize, 2008

Other Honors:

- Honor socities: Phi Beta Kappa, Tau Beta Pi
- Dean's List all semesters 2007-2012, graduated summa cum laude

OUTREACH & SERVICE

Academic Conference Reviewer

- Conferences & Workshops: EACL 2021, SLT 2021, ACL 2020, EMNLP 2020, NAACL 2019, NAACL SRW 2019, EMNLP 2019; Secondary reviewer for ACL 2019, ICASSP 2014

Student Advisory Council Committee

University of Washington, Seattle, WA Jun 2019 - Aug 2020

- Co-led an initiative to establish ECE department's student advisory council, a platform for transparent communication between ECE students and leadership
- Worked with ECE leadership to propose solutions and address students' concerns

Graduate Staff Assistant

University of Washington, Seattle, WA May 2016 - Jun 2017

- Organized an annual set of talks showcasing UW ECE students' research
- Assisted in reviewing graduate admission applications to the UW ECE graduate program

- Assisted in organizing prospective student visit day and new student orientation activities
- Represented UW ECE at conferences with a focus on recruiting underrepresented minorities (SWE, SACNAS, GHC, WiSE, NSBE)

Saturday School Tutor
Seattle World School, Seattle, WA Feb 2015 - May 2015
- Tutored middle & high school students with math and writing assignments
- Helped ESL students with English reading exercises

Bucknell Brigade, Member
Bucknell Office of Civic Engagement, Lewisburg, PA Sep 2010 - May 2012
- Fund-raised for maintaining a health clinic in Managua, Nicaragua
- Traveled to assist with various tasks in the clinic

International Orientation Assistant and Leader
Bucknell International Student Services, Lewisburg, PA Aug 2008 - May 2012
- Prepared orientation activities and materials for incoming international students; trained junior International Orientation Assistants

SKILLS

Computing: Python (pytorch, sklearn, tensorflow), MATLAB, Java, Bash

Languages: Vietnamese (native), English (fluent), French (conversational)

Personal Bests: 23:53 5K (July 2020); 50:18 10K (November 2019); 1:49:50 Half-marathon (December 2019); 1000+ days of Duolingo streak
